

ABSTRACT OF THE DISCLOSURE

A photosensitive transfer material including a temporary support, a thermoplastic resin layer, an intermediate layer, and a photosensitive recording layer. The thermoplastic resin layer, the intermediate layer and the photosensitive recording layer are provided in this order on the temporary support. The thermoplastic resin layer includes a thermoplastic resin and a polyester resin, and the polyester resin is contained in the thermoplastic resin layer in an amount of at least 20% by weight and no more than 90% by weight based on a total solid content of the thermoplastic resin layer.
